Container solutions that work for your business.

## OUR PRODUCTS

- NEW IBCs
- REMANUFACTURED IBCs
- RECONDITIONED IBCs
- POLY DRUMS

**IMACC Corporation** is a reconditioner and recycler of industrial containers headquartered in Dalton, GA with locations in Gastonia, NC and Louisville, KY. IMACC is the one source for all your container needs. Whether it be new, remanufactured or reconditioned totes (IBCs), poly drums, or our nationwide empty container pick up program, we have what it takes to keep your costs down and profits up.

IMACC is focused on providing a quality product with dependable service that is unmatched in our industry. Simply put, nobody responds to your needs quicker and nobody does it better...

Do you have empty containers you need removed from your facility? Contact IMACC today for a no hassle pick up with next day service.

## TOTES (IBCs)

IMACC offers new, remanufactured (new bottle/reconditioned cage) and fully reconditioned IBCs in 275 and 330 gallon sizes and in various cage and pallet combinations. Totes are supplied to meet exact customer specifications with all testing done in accordance with DOT and UN regulations. With fully automated equipment and the know how to clean a wide variety of residues, empty containers are cleaned, inspected repaired, and certified for reuse.

## POLY DRUMS

Available in a variety of sizes and colors in both OH and TH configurations. New and reconditioned available.

## RETRIEVAL SERVICES

With locations in Dalton GA, Gastonia NC and Louisville KY, IMACC serves a wide customer base. If you have empty totes and/or poly drums you would like picked up, call IMACC today. We will have your containers picked up within 24 hours of your request. We offer drop trailer services and routine pick ups as well. Guidelines can be found by visiting [www.imacc-corp.com](http://www.imacc-corp.com).

## RECYCLING

Since 1984 IMACC has recognized the need for a recycling program designed to safely and efficiently recover all plastic and steel from end of life containers. It's this forward thinking that has led us to where we are today and allowed IMACC to become an industry leader in the recovery and recycling of post industrial IBCs and drums.
